FBLD

Fragment-based Lead Discovery Conference 2010

Call for Abstracts

Fragment-based Lead Discovery 2010 will be held in Philadelphia, PA. This is the third in a popular series of conferences that started with FBLD 2008 in San Diego and FBLD 2009 in York, UK.

An emphasis will be on biophysical methods - old and new - for fragment identification and characterisation, as well as sessions on libraries, chemical strategies for fragment evolution and success stories.

Oral Presentations & Poster Submission

Offers of talks and posters are invited for consideration by the organising committee. Please submit a one-page abstract to fbld2010@ysbl.york.ac.uk or for more information visit www.fbld2010.com
