

Biosolve IT

Fast & Visual FBLD Computer Assistance for Anyone

This workshop will introduce bench and computational chemists to the next-gen interactive FBLD-ing as seen by Roche, Boehringer, Pfizer, and others.

Link, merge, grow while visualizing effects on affinity, LE, and more.

See how to perform Google-like searches for fitting fragments within seconds, and eyeball these easily.

All workshop participants will receive evaluation copies of the software.

For more details see:
