

Wednesday 12 October 2016			
Session 1: Keynote and Success Stories. CHAIRS: Joe Patel & Jamie Simpson			
08:30	Mark Sabat	Takeda	Flipped Fragment Poses: Bain or Blessing for Designing Selective Kinase Q Inhibitors?
09:00	John Darby	University of York	Modifying glycoside hydrolase enzyme activity through covalent protein modification with fragments
09:30	Li Xing	Pfizer	A Hinge-hopping Approach to Design of Kinase Inhibitors
10:00	Doug Whittington	Amgen	A fragment linking approach based on 19F-NMR spectroscopy to obtain highly potent and selective inhibitors of beta-secretase
10:30	Gregg Siegal	Zobio	Fragments Enable a New Mechanism of Inhibiting Lysine Methyl Transferases.
11:00	Coffee		
11:15	Dan Erlanson	Carmot Therapeutics	Keynote Lecture: Forty Years of Fragments 1996 - 2036
12:15	CONFERENCE CLOSES
