We regret that errors have been made to Eqs. (3) and (4).
The correct forms are as follows:

$$v_{21}^{\sigma} = - \left(\frac{\partial \mu_2^{\sigma}}{\partial \mu_1} \right)_{T,P,n_2}, \quad (3)$$

$$RT \left(\frac{\partial \ln K}{\partial \mu_1} \right)_{T,P,n_2} = \Delta v_{21}. \quad (4)$$

The above correction does not affect the rest of the paper.
