There were some errors in the Table 1, which should be corrected as follows. These corrections do not change any of the discussions of the paper.

**Table 1.**

reactions	cosolvents	$\Delta\nu_{21}^0$ mol/mol	$n_1^0\Delta V_2^0$ mol/mol	$\Delta G_{21}^0$ ml/mol	$\Delta G_{23}^0$ ml/mol	$\Delta V_E$ ml/mol
hexokinase-glucose dissociation	PEGs	326	-4.2	76	-5800	521
cytochrome P450-camphor dissociation	osmolytes	19	-1.6	29	-310	115
lysozyme denaturation	GuHCl	-117	-3.0	55	2160	396
tendamistat denaturation	GuHCl	-50	-2.3	41	950	n/a
